A diligent and dedicated graduate of Economics with passion for IT and Data. Currently pursuing a software development program at Maxim Nyansa IT Solution with focus on Backend Development.

Experiences

Software development trainee — **to now**

Maxim Nyansa IT Solutions - Accra, Ghana

As part of software development training, we are to develop and deploy a Job Application site. I am the team lead for the backend using Node.js, JavaScript and SQL as our database.

Teaching Assistant — **9/2020 – 8/2021**

Kwame Nkrumah University Of Science And Technology - Kumasi, Ghana

Increased the pass rate in Statistics for Economists by 8% by tutoring students individually and in groups on lesson concepts.
Recorded and graded assignments and tests of over 300 students and provided them with feedback based on the results.
Delivered progress report on struggling students who I was gave special tutorials.

Intern — **6/2017 – 9/2017**

Bawku Municipal; Assembly - Bawku, Ghana

Conducted research with a team on market trends in the Municipality by collecting and analyzing data.
Cooperated with other departments to find out their procurement needs and reported tot the procurement officer.
Printed and photocopied files for the procurement office and reduced paper waste by about 10%.

Education

Software Development Bootcamp — **– 6/2023**

Maxim Nyansa IT Solutions

B.A Economics — **9/2016 – 8/2020**

Kwame Nkrumah University of Science and Technology
